The camera connection cable is located to the right of the driver's seat

MK-713.1.8 cable located at the armrest exit.

Adaptor cable MF TRACTOR 4

Extension cable

AMS camera

By default, the tractor is equipped with a camera on the rear of the roof. The DATATRONIC5 display is equipped with a single video input. If you want to keep this default camera by addition of an AMS camera, you can use our accessories:

- VICAM-AMS-SP4 to have up to 4 video inputs.
- The VICAM-AMS-MF-TRACTOR4-MC adaptor cable. This cable is used to connect the integrated camera to the SP4 system.

Contact us for more informations.

### • RECOMMENDATIONS

AMS cannot be held responsible for any modifications that may be implemented by the manufacturer on the machine. Our camera solutions are driver assistance systems. Please remain vigilant on the roads, the driver is the only responsible for his maneuvers.

### • WARRANTY

The product is guaranteed for two years as from the date of sale to the end user, remembering that the sale must take place within 24 months after delivery to the concession.

### • AFTER SALES SERVICE

#### Reserved for professionals

→ Download the service form from our site <http://pro.ams-diffusion.fr/aftersale/>

When returning, please include the following documents for managing repairs and the warranty:

- The return-authorisation form duly completed
- A copy of the invoice with the date of sale to the end user
- The reason for the claim, or a description of the malfunction.
