

SECURITY KIT OF 2 CAMERAS

OPTIMIZE YOUR VISIBILITY FOR BETTER SAFETY

Visibility can be reduced on agricultural machine, this is the reason why we have developed the SAFETYCAM KIT. Using two side cameras, you get optimal visibility on the road, impossible to see from your cabin.

The kit is composed of 2 CAMPAL cameras, 1 magnetic support, 1 metal support and 10m extension cable.

DRIVER VIEW

Install the kit on the front of the machine, where you have no visibility on the road.

For optimal use, we recommend to use on a split screen.
